

Board of Directors
Wyandotte Creek Groundwater Sustainability Agency
Oroville, California

We have audited the financial statements of the governmental activities and the major fund of Wyandotte Creek Groundwater Sustainability Agency as of and for the years ended June 30, 2023 and 2022, and have issued our report thereon dated May 17, 2024. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audits in our statement of work dated October 26, 2023. Professional standards also require that we communicate to you the following information related to our audits.

Significant audit findings

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Wyandotte Creek Groundwater Sustainability Agency are described in Note 1 to the financial statements.

No new accounting policies were adopted and the application of existing policies was not changed during 2022 and 2023.

We noted no transactions entered into by the entity during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no accounting estimates affecting the financial statements which were particularly sensitive or required substantial judgments by management.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no particularly sensitive financial statement disclosures.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties encountered in performing the audits

We encountered no significant difficulties in dealing with management in performing and completing our audits.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audits, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

Corrected misstatements

The following material misstatements detected as a result of audit procedures were corrected by management:

- Accounts payable and professional services expense/expenditures were understated by \$858 and \$1,145 for fiscal years ended June 30, 2022 and 2023, respectively, for professional services provided and not accrued in the proper period.
- Receivables and contribution revenue was understated by \$5,000 for a member contribution which was formally budgeted and approved but not recorded for the year ended June 30, 2023.

Disagreements with management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audits.

Management representations

We have requested certain representations from management that are included in the management representation letter dated May 17, 2024.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the entity's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the entity's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Required supplementary information

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management about the methods of preparing the RSI, including whether the RSI has been measured and presented in accordance with prescribed guidelines, whether the methods of measurement and preparation have been changed from the prior period and the reasons for any such changes, and whether there were any significant assumptions or interpretations underlying the measurement or presentation of the RSI. We compared the RSI for consistency with management’s responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audits of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

Other information included in annual reports

Other information (financial or nonfinancial information other than the financial statements and our auditors’ report thereon) is being included in your annual report and is comprised of the list of directors. Our responsibility for other information included in your annual report does not extend beyond the financial information identified in our opinion on the financial statements. We have no responsibility for determining whether such other information is properly stated and do not have an obligation to perform any procedures to corroborate other information contained in your annual report. We are required by professional standards to read the other information included in your annual report and consider whether a material inconsistency exists between the other information and the financial statements because the credibility of the financial statements and our auditors’ report thereon may be undermined by material inconsistencies between the audited financial statements and other information. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. Our auditors’ report on the financial statements includes a separate section, “Other Information,” which states we do not express an opinion or any form of assurance on the other information included in the annual report. We did not identify any material inconsistencies between the other information and the audited financial statements.
